

Miscellaneous Industrial Users (MIU) General Permit Notification Requirements

Discharge Group		Form Required	Submitted To	Due Date	Notes
<ul style="list-style-type: none">*Group I Wastewater ≥ 1000 gpd and < 25,000 gpd*Group II wastewater ≥ 5000 gpd*Any flow of vehicle maintenance wastewater*Any transported wastewater*Any flow requiring a variance*Any flow that POTW Authority / Receiving POTW Authority requests notify	➔	Discharge Notification Form			
<ul style="list-style-type: none">*Any flow of Vehicle Maintenance Wastewater*Group I Wastewater ≥ 1000 gpd and < 25,000 gpd AND any of the following apply:<ul style="list-style-type: none">• Greater than 2% and less than 5% average organic or• Hydraulic capacity of POTW• Transported• Discharge has had icrease in flow/ change in chemistry since last registration/ notification• Requires a variance• Requires treatment prior to discharge to meet limits in GP Table 5-2 or POTW Authority / Receiving POTW Authoritylimits, whichever is more stringent	➔	Supplemental to Discharge Notification Form: Attachment A: Detailed Discharge Information	Receiving POTW Authority AND Any POTW Authorities where wastewater passed through via sewer system	New Discharges: Before discharge is initiated Existing Discharges: April 29th, 2021	<ul style="list-style-type: none">• Values of gpd refer to cumulative maximum daily flow• Results of one screening analysis from the testing of a sample taken within 90 days of notification OR most recent sampling event for pol-lutants specified in permit. (This is a ONE TIME reporting requirement.)• All dischargers of MIU wastewater must comply with the requirements of the MIU GP whether or not they need to submit a Notification Form
<ul style="list-style-type: none">*Group I Wastewater ≥ 1000 gpd and < 25,000 gpd AND discharge treated to meet GP Table 5-2 / POTW limits*Any flow of Vehicle Maintenance Wastewater (excluding discharges previously permitted by DEEP)	➔	Attachment B: Qualified Professional Certification for Treatment			<ul style="list-style-type: none">• Group 1 Process Wastewater<ul style="list-style-type: none">• Commercial Laundry Wastewater• Contact Cooling and Heating Wastewater• Cutting and Grinder Wastewater• Food Processing Wastewater (including breweries, distilleries)• Non-destruct testing rinse water• Printing and photographic processing wastewater• Water treatment wastewater• Reverse osmosis reject water• Tumbling or cleaning of parts wastewater
<ul style="list-style-type: none">*All Group I wastewater submitting the Discharge Notification Form*All Group II wastewater in category “Other” (Refer to GP section 4(a)(1)) submitting the Discharge Notification Form	➔	Attachment C: Discharge Analysis			<ul style="list-style-type: none">• Group 2 Non-Process Wastewater<ul style="list-style-type: none">• Air Compressor Condensate & Blowdown• Boiler Blowdown• Building Maintenance Wastewater• Fire Suppression System Testing Wastewater• Hydrostatic Pressure Testing Wastewater• Non-Contact Cooling Water• Potable Water System Maintenance or Sampling Wastewaters• Swimming Pool Wastewater• Vehicle Maintenance Wastewater
<ul style="list-style-type: none">*All flows. For any discharge requesting variance from the effluent limit requirements specified in GP Table 5-1 / POTW limits.	➔	Attachment D: Request for Variance			
<ul style="list-style-type: none">*Group I wastewater < 1000 gpd discharged to sanitary sewer (no variance required)*Group II wastewater < 5000 gpd discharged to sanitary sewer (no variance required)	➔	Notification Form NOT necessary			

Miscellaneous Industrial Users (MIU) General Permit Monitoring/Reporting Requirements

Discharge Group	Total Maximum Daily Flow Thresholds per Category of Wastewater	Monitoring Frequency	Monitoring Record Keeping Requirements	Violation Record Keeping Requirements & Violation Reporting Requirements
Group I – Process Wastewaters (except as noted below)	Flow < 1,000 gpd 1,000gpd ≤ Flow < 10,000gpd 10,000gpd ≤ Flow < 25,000gpd	None Quarterly Monthly	Recorded in a log made available on request to: <ul style="list-style-type: none">POTW Authority / Receiving POTW Authority or CT DEEP Commissioner See 5(b)(8) of GP for details.	Violations recorded (within 24 hours of permittee becoming aware) in a log made available on request to: <ul style="list-style-type: none">POTW Authority / Receiving POTW Authority or CT DEEP Commissioner See 5(b)(8) and 5(d) of GP for details. Report violations or problems immediately to: <ul style="list-style-type: none">POTW Authority / Receiving POTW Authority AND <ul style="list-style-type: none">Water Permitting and Enforcement Division of the Bureau of Materials Management and Compliance Assurance For certain violations, permittee will have to notify CT DEEP Commissioner and POTW Authority / Receiving POTW Authority.
Group I – Food Processing, Commercial Laundry, Reverse Osmosis Reject Water	Flow < 25,000 gpd	None		
Group II – Non-process Wastewaters	All Flows	None		
Photoprocessing Wastewaters	All Flows	Monthly, Annually (for silver recovery systems)		

Other Requirements

Discharge Group	Total Maximum Daily Flow Thresholds per Category of Wastewater	Requirement	Recording Requirements	
Any discharge (other than vehicle maintenance wastewater) requiring treatment prior to discharge to meet limits in GP Table 5-2/POTW Authority limits.	All Flows	O&M Plan (See MIU GP Section 5(e) (2) for eligibility and Appendix B for required components of Plan.) Spill Prevention Plan (See MIU GP Section 5(e)(2) for eligibility and exceptions and Appendix C for required components of Plan.)	Must be prepared, not required to be submitted with Discharge Notification Form. Made available on request to POTW Authority / Receiving POTW Authority.	<div>Notes<ul style="list-style-type: none">Refer to Table 5-2 for parameters to be monitored forRefer to footnotes on Table 5-3 of General Permit</div>
